Czech Republic

May it please Your Majesty,

We are writing to congratulate you on your platinum jubilee.

We found out about it while we were reading Gate magazine (English magazine for Czech students) in our English language class. We have learnt a lot of interesting information about your life – e.g. about your own dog breed, different signals you use with your lady-in-waiting, your knowledge of French language etc. which we found very interesting.

We are students of Grammar School Postupická, Prague 4, the Czech Republic. We are in class Prima A – 13 to 14 years old. Most of us have been studying English for 7 years. Studying English is compulsory from 3rd grade of elementary schools in the Czech Republic. We are really glad that we have the opportunity to study English since an early age because it is rather easy and beautiful language. We are also learning French, German and Spanish languages at our school.

We are enclosing our hand-made cards with this letter and we hope you will see and like them.

Félicitations pour vos anniversaires/ Herzlichen Glückwunsch zu Ihrem Jubiläum/ Felicidades por tu aniversario/ Gratulujeme k Vašemu výročí

Yours sincerely

On behalf of Class **Prima A**

Grammar School Postupická, Prague 4, Czech Republic

Jana Srbová (English teacher)
